

Contractor/Visitor Safety Orientation Video

Date _____

All Contractors and/or Visitors must view the Orientation Video and sign the completion form prior to entering Vigor Sites .

Vigor has a strong commitment to a safety work culture. We believe that all injuries are preventable with the right approach to each job. The conduct of all employees, subcontractors, and visitors while in a Vigor facility is largely what defines this safety culture and environmental stewardship. During your work and/or visit to Vigor’s facility your commitment to our values and business ethic is critical.

This is to certify that all employees assigned to the project outlined below have watched the video and each understand to:

- *Acknowledge and report potential environmental and health hazards in the yard.*
- *Conduct themselves in a manner to promote basic work place safety at all times.*

If questions or concerns regarding work place safety arise, it is every employee’s duty to immediately report such issues to their supervisor.
